

## ABOUT THE 'FIRE PROTECTION ASSOCIATION OF SOUTHERN AFRICA' *'Improving fire safety in the Southern African region'*

The Fire Protection Association of Southern Africa (FPASA) was established in 1973 to provide a specialized fire safety management technical and training service to industry, commerce, fire and rescue services and society at large.

Over the years the Association has developed a range of membership options and technical, training and fire safety management services that are recognized for their quality, professionalism and value.

Today the role of the FPASA covers fire safety Education, Information, Advice, Consultancy and Training (Fire College).

The Fire College is a professional training centre dedicated to assist in the reduction of life and property losses in the Southern African region. It provides training on request of FPASA members and non-members alike, and in addition provides standard training programmes to suit the broad spectrum of industrial, commerce, institutional and local authority requirements.

The Technical Division includes the Library which offer a range of fire safety management consulting services to members and clients as well a short-term insurer specific services as part of the FPASA's Insurer Fire Impact Reduction Strategy (InFIREs) initiative.

The Administration and membership services section of the FPASA provides administration support to the Fire College and Technical Division. It also provides member promotion/support and publication sales.

Our categories of membership will add value to any institution or business having an interest or involvement in fire engineering, fire protection, fire prevention, or fire safety management.

Our commitment to continual improvement through our LRQA ISO 9001:2015 listed quality management system means that the services we offer are reviewed regularly in terms of our objectives and the needs of our members and clients. A copy of our quality policy is included in the corporate policies section of our website.

The organization enjoys extensive accreditation and approval including:

- LGSETA ETQA accreditation or approval for many of the training courses.
- ISO 9001:2015 listing for the quality management system.
- SABS 1475 accredited fire equipment workshop.
- IFE (UK) academic recognition for the Fire Investigation Course.
- IAAI recognition of our fire investigation course.
- CAA accreditation the flight crew fire-fighting training courses.
- SAQCC (Fire) accreditation for the fire appliance reconditioning course.

In spite of our status as a Section 21 company (Association not for Gain) without ownership or shareholding, the FPASA has a formal BEE and employment equity policy and is an equal opportunities employer. We presently have a BBBEE Level 4 status.

### **Premises and facilities**
